FORWARD LOOKING STATEMENTS

This presentation ("Presentation") does not constitute an offer of any securities for sale or a solicitation of an offer to purchase any securities. This Presentation, and the information contained herein, is not for release, distribution or publication into or in the United States or any other jurisdiction where applicable laws prohibit its release, distribution or publication. This Presentation is being issued by Jaguar Mining Corp. (the "Company") for information purposes only in relation to the Company's proposed private placement ("Placing") of shares of the Company (the "Shares"). Reliance on this Presentation for the purpose of engaging in any investment activity may expose an individual to a significant risk of losing all of the property or other assets invested.

The contents of this Presentation are confidential and may not be copied, distributed, published or reproduced in whole or in part, or disclosed or distributed by recipients to any other person. No reliance may be placed for any purpose whatsoever on the information or opinions contained in this Presentation or on its completeness, accuracy or fairness. No person should treat the contents of this Presentation as advice relating to legal, taxation or investment matters, and must make their own assessments concerning these and other consequences of investing in securities of the Company, including the merits of investing and the risks. Prospective investors are advised to consult their own personal legal, tax and accounting advisors and to conduct their own due diligence and agree to be bound by the limitations of this disclaimer.

Certain statements in this Presentation may constitute forward-looking information within the meaning of applicable securities laws. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "expects", "believes", "anticipates", "budget", "scheduled", "estimates", "forecasts", "intends", "plans" and variations of such words and phrases, or by statements that certain actions, events or results "may", "will", "could", "would" or "might", "be taken", "occur" or "be achieved". Certain statements, beliefs and opinions in this Presentation (including those contained in graphs, tables and charts), which reflect the Company's or, as appropriate, the Company's directors' current expectations and projections about future events, constitute forward-looking information. Forward-looking information contained in this Presentation is based on certain assumptions regarding, among other things, expected growth, results of operations, performance, industry trends and growth opportunities. While management considers these assumptions to be reasonable, based on information available, they may prove to be incorrect. By their nature, forward-looking statements involve a number of risks, uncertainties and assumptions that could cause actual results or events to differ materially from those expressed or implied by the forward-looking statements. These risks, uncertainties and other factors include, but are not limited to risks associated with general economic conditions; adverse industry events; marketing costs; loss of markets; future legislative and regulatory developments; inability to access sufficient capital from internal and external sources, and/or inability to access sufficient capital on favourable terms; the mining industry generally, income tax and regulatory matters; the ability of Chakana to implement its business strategies including expansion plans; competition; currency and interest rate fluctuations, and fluctuations in the price of copper. The foregoing factors are not intended to be exhaustive. These risks, uncertainties and assumptions could adversely affect the outcome and financial effects of the plans and events described herein. Forward-looking statements contained in this Presentation regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future. The Company does not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. No person should place undue reliance on forward-looking statements, which speak only as of the date of this Presentation. Examples of forward-looking information in this Presentation include metal price assumptions, cash flow forecasts, projected capital and operating costs, metal or mineral recoveries, mine life and production rates, none of which are based on any preliminary economic assessment, pre-feasibility study, or feasibility study.

Technical information in this Presentation has been approved by Jon Hill, an employee of Jaguar Mining, and a Qualified Person as defined by NI 43-101 – Standards of Disclosure for Mineral Projects.

WHY INVEST IN JAGUAR?

LONG TERM PRODUCER

VALUABLE ASSET BASE

ORGANIC GROWTH PLAN

LONG TERM PRODUCER

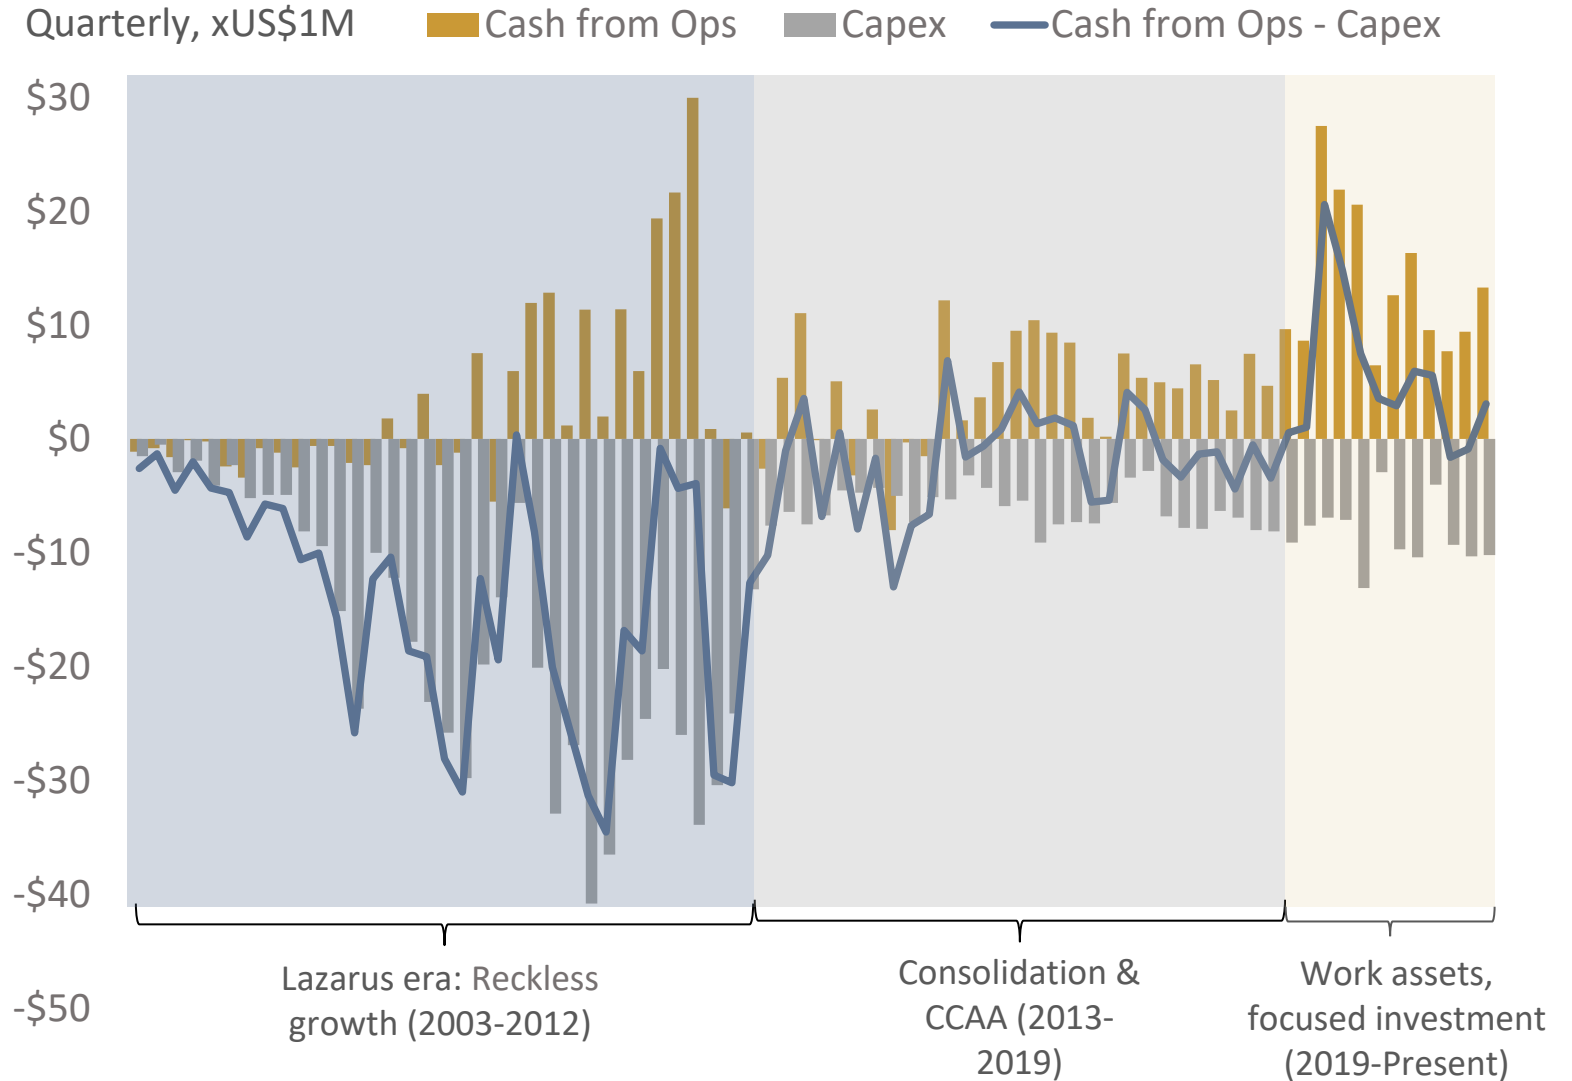

- Continuous production since 2006.
- Cost-effectively replaced Reserves.
- The Company has reinvested into an extensive asset base and pays dividends opportunistically.
- Jaguar is debt free and has a strong cash balance.

FINANCIAL HISTORY – THREE ERAS

- Jaguar Mining is now almost 20 years old.
- The first ten years, as operated under former management, was marked by poorly executed growth.
- Following that, the Company was reorganized under CCAA and a period of consolidation followed.
- More recently, the Company has been focused on improving operating efficiencies, maintaining balance sheet discipline, and selectively investing in its extensive asset base to sustain its operations and plant the seeds for future growth.

VALUABLE ASSET BASE

- ~\$800M capital invested.
- With this, the Company has built and still owns four mines and three mills.
- Jaguar has processing capacity of ~6000 tpd and is currently using 40% of this.
- The Company's land position in the prolific Iron Quad remains intact and underexplored.

INVESTING IN GROWTH

3 YEAR OPERATING PROFILE US\$M

■ Increase ■ Decrease ■ Total

ORGANIC GROWTH PLAN

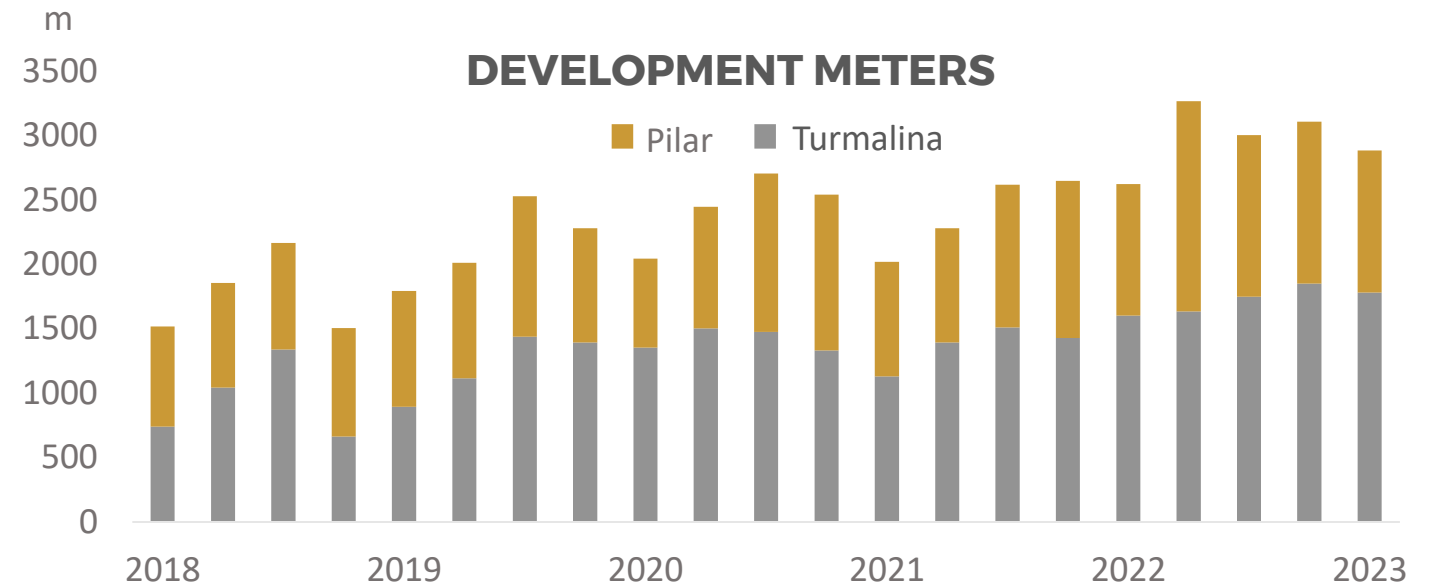

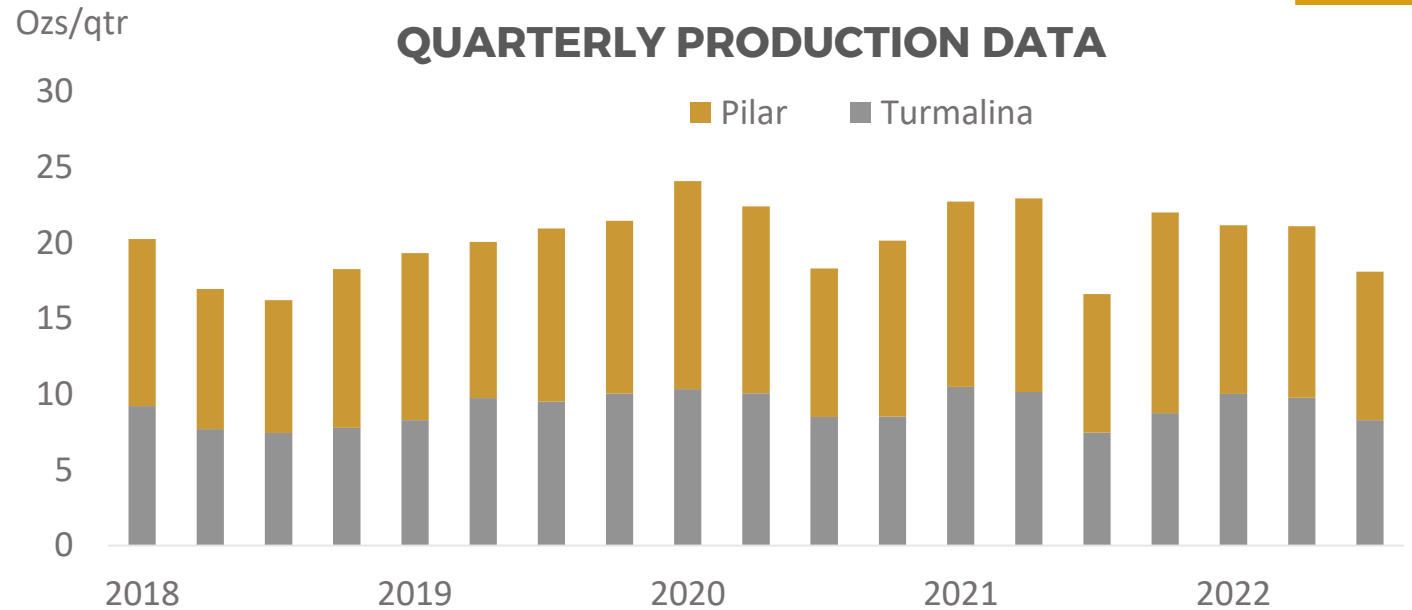

- Jaguar's mines are already built and permitted.
- Our plan going forward is to source fresh mill feed, both through exploration on our land and potential arrangements with neighbours to fill our mills.
- Returns on marginal increases in throughput, given fixed-cost nature, are significant.

PRODUCTION + INVESTMENT IN DEVELOPMENT

- Since 2018 the Company has produced on average 20k ozs/qtr.
- This production has varied between 16-24k ozs/qtr.
- Q1's tend to be weaker than the rest of the year.
- After a dip in 2018, development has been robust.

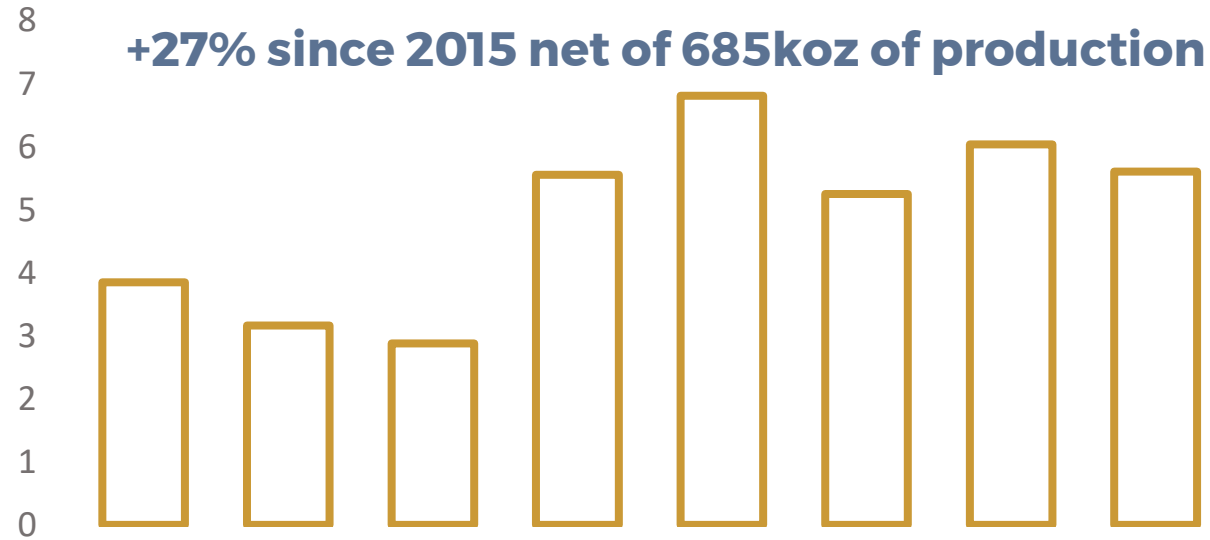

STEADY, RELIABLE RESERVE REPLACEMENT

MINERAL RESERVES

Years of Reserves/Annual Production

Annual production

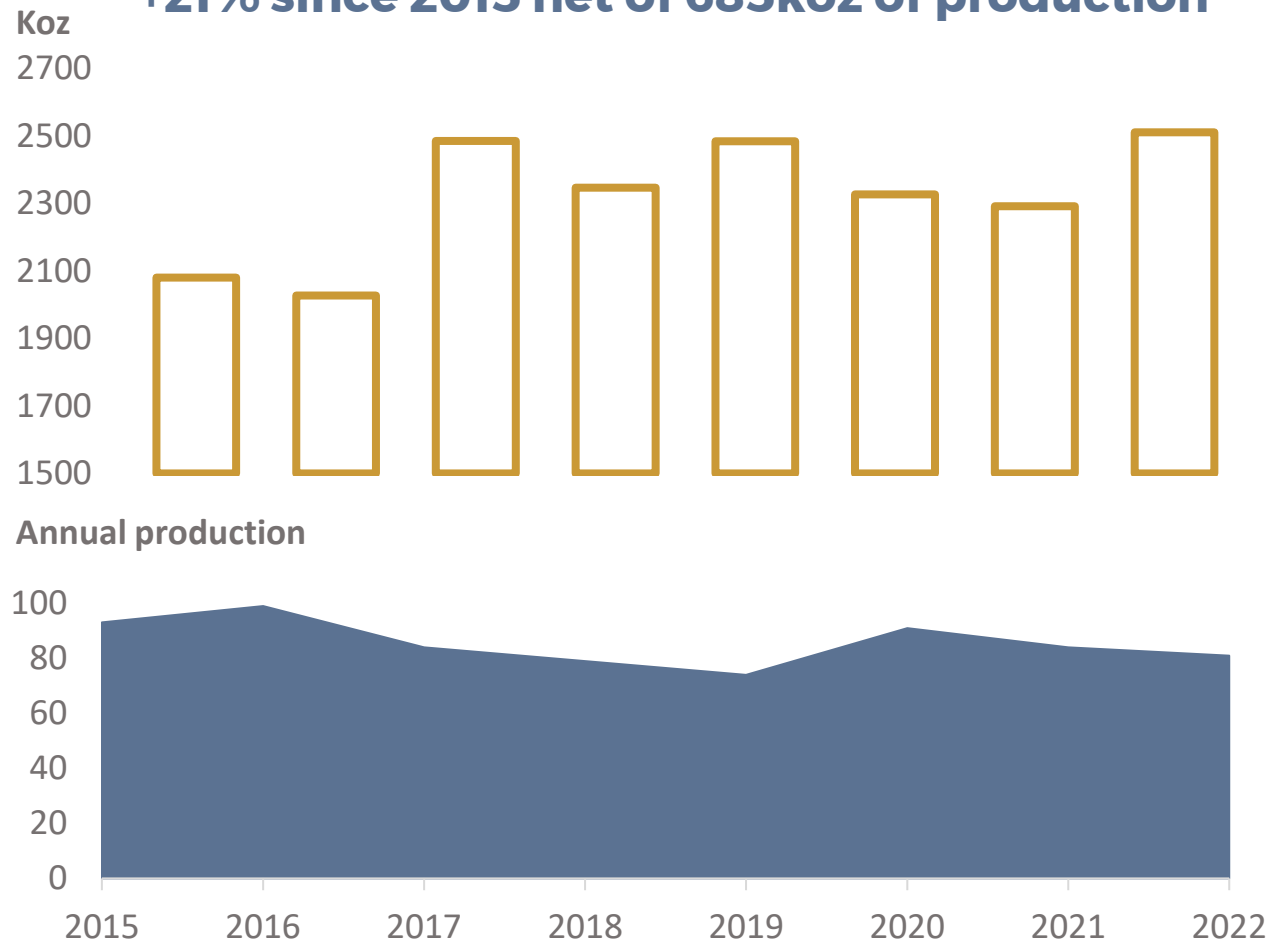

- Jaguar's operations exploit underground deposits of a non-bulk tonnage nature.
- As such, it is uneconomic to drill out years and years of reserves.
- Rather, the objective is to maintain five years of reserves ahead of current production.
- This has been achieved on a consistent basis since 2018.

RESOURCE INVENTORY KEEPS PACE WITH RESERVES

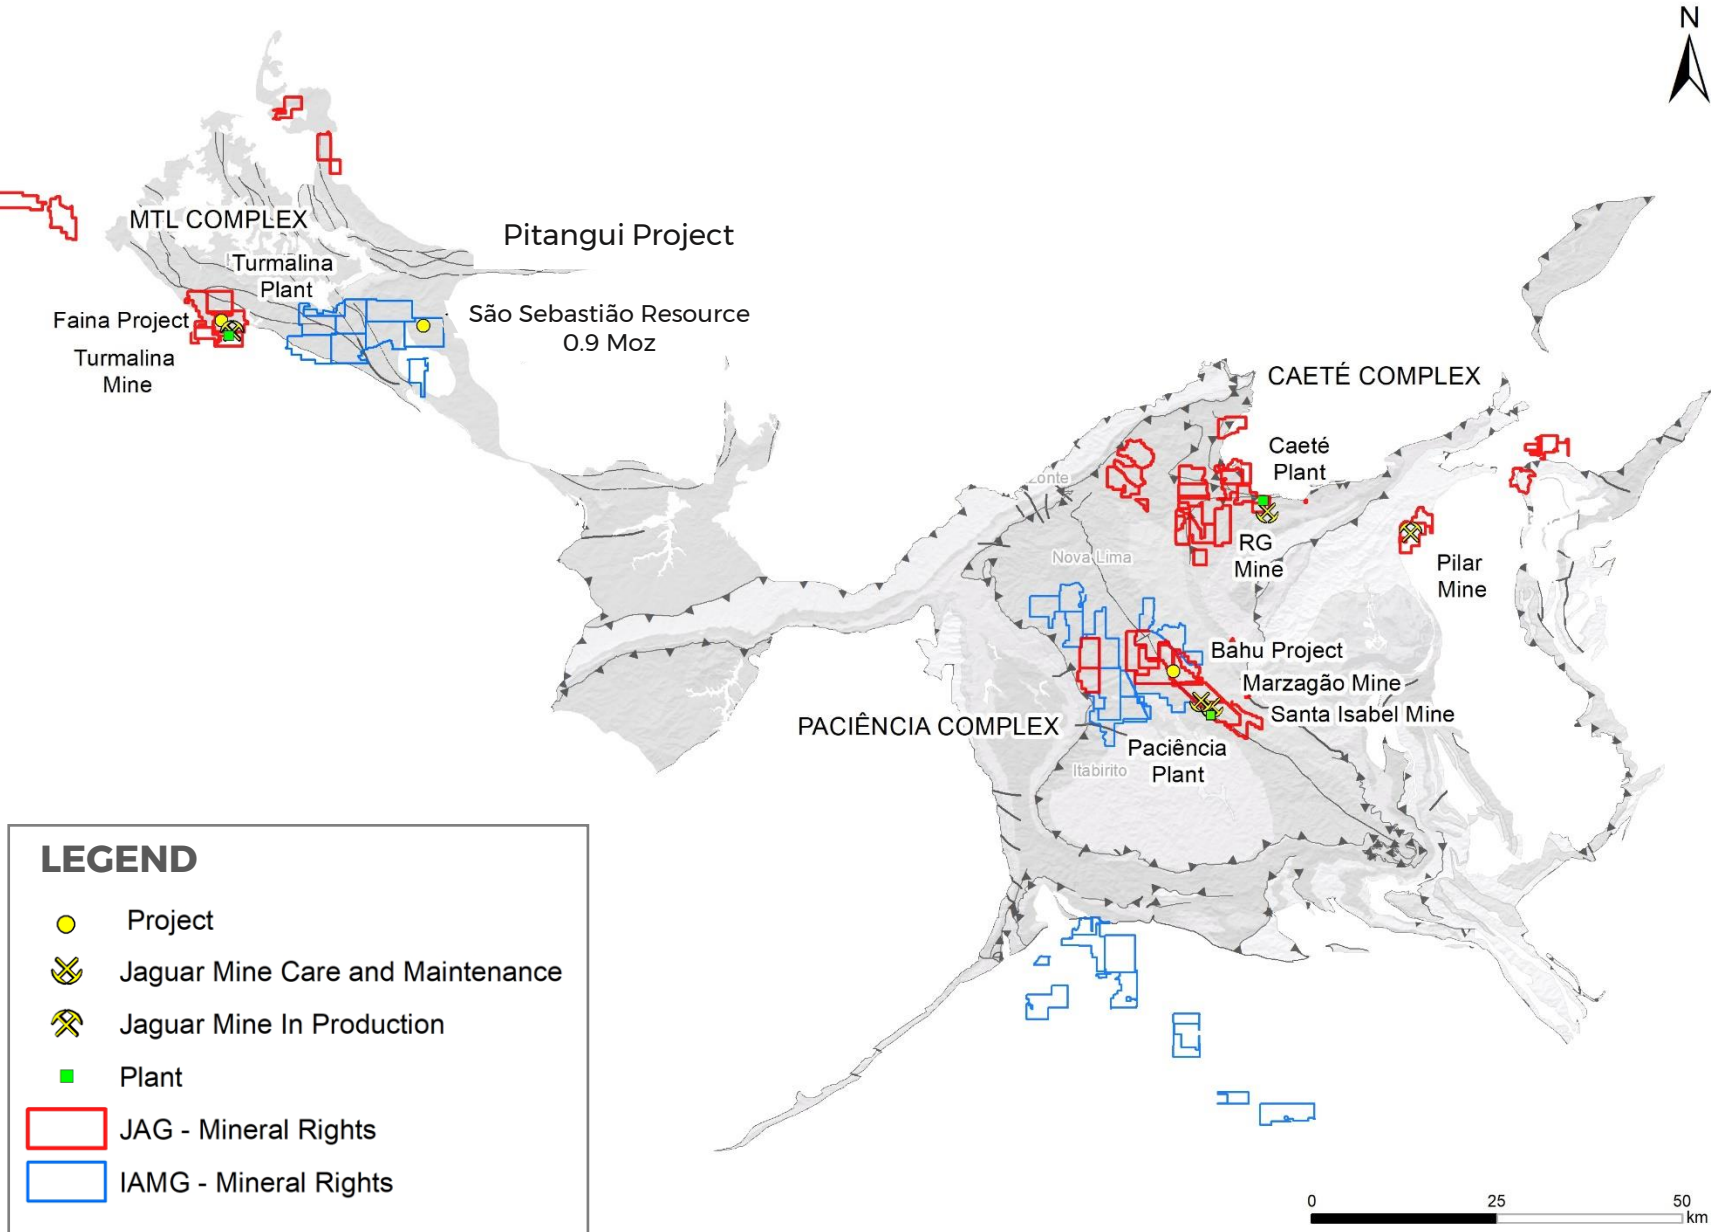

MEASURED, INDICATED AND INFERRED MINERAL RESOURCES

+21% since 2015 net of 685koz of production

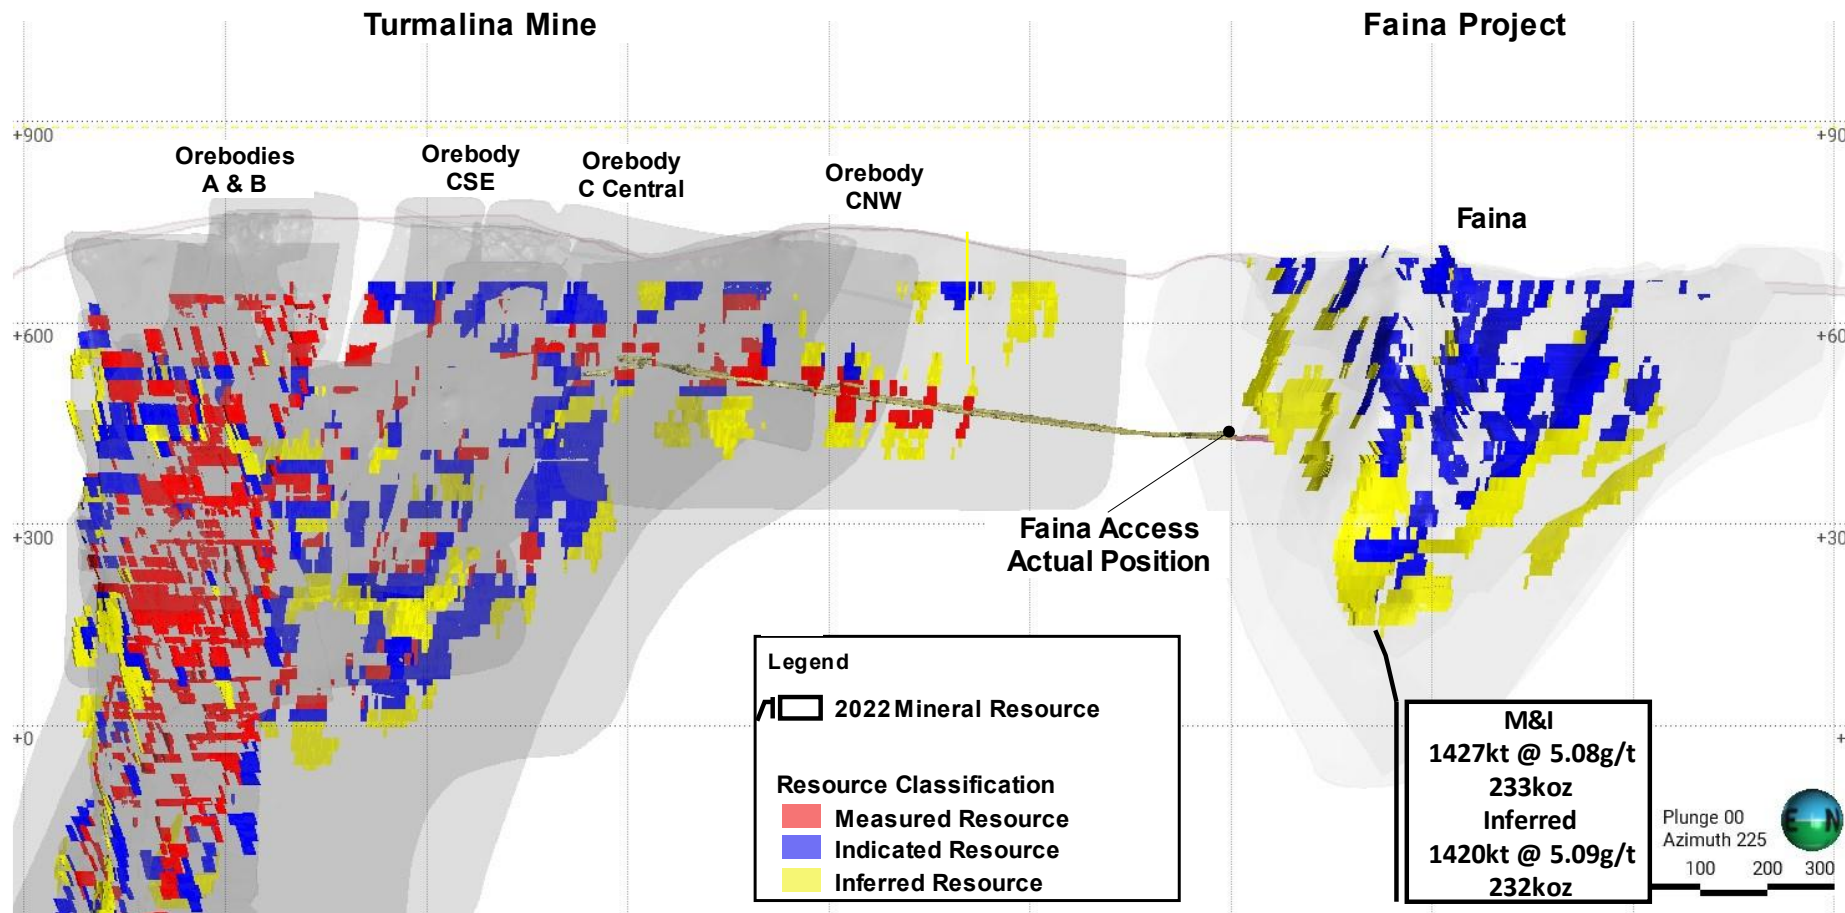

- Since 2015, Jaguar's Mineral Resources Inventory (inclusive of Mineral Reserves) has maintained a 4-5 year Mine Life at current production rates.
- Historical Conversion of Inferred Resources to Produced ounces is 31%.
- Exploration costs per new Inferred Mineral Resources are <\$10 per ounce with conversion to Mineral Reserves < \$50 per ounce.

PLUS AN EXTENSIVE LAND PACKAGE (57k ha)

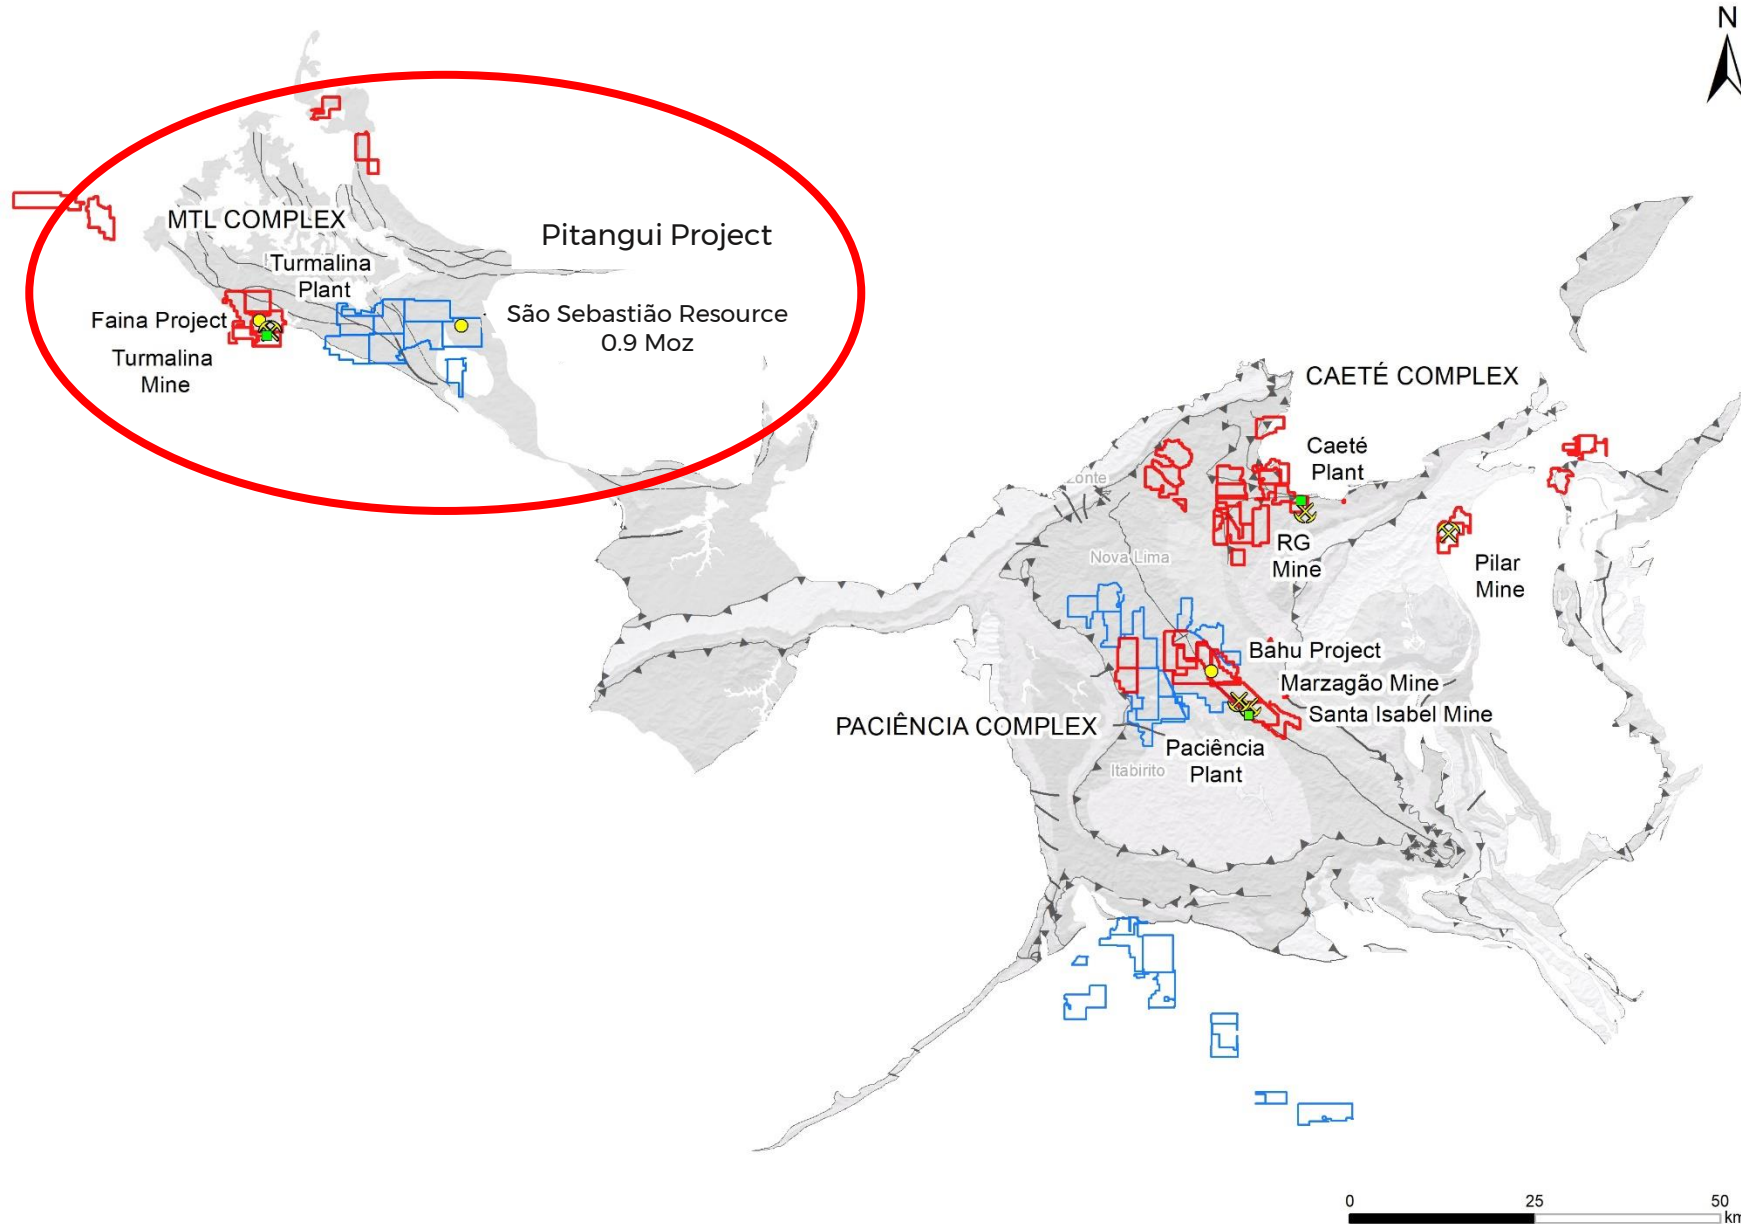

GROWTH: FAINA PROJECT

- Faina accessed from existing mine complex expected in Q4 2023
- Minimal permitting required.
