DISCLAIMERS AND CAUTIONARY STATEMENTS

This presentation (the “Presentation”) does not constitute an offer of any securities for sale or a solicitation of an offer to purchase any securities, nor does it constitute investment advice or an offering memorandum. Readers should review this Presentation in conjunction with all of the public disclosure of Jaguar Mining Inc. (the “Company”) available under the Company's profile on www.sedarplus.ca. This Presentation, and the information contained herein, is not for release, distribution or publication into or in the United States or any other jurisdiction where applicable laws prohibit its release, distribution or publication. This Presentation has been prepared by the Company for information purposes only. Reliance on this Presentation for the purpose of engaging in any investment activity may expose an individual to a significant risk of losing all of the property or other assets invested.

Certain statements in this Presentation may constitute forward-looking information within the meaning of applicable securities laws, including without limitation, statements relating to corporate objectives. Generally, forward-looking information can be identified by the use of forward-looking terminology such as, without limitation, “expects”, “budget”, “scheduled”, “estimates”, “forecasts”, “projections”, “upcoming”, “plans” and/or the negatives thereof or other variations of such words and phrases (or comparable terminology), or by statements that certain actions, events or results “may”, “will”, “could”, “would” or “might”, “be taken”, “occur” or “be achieved”. Certain statements, beliefs and opinions in this Presentation, which reflect the Company's or, as appropriate, the Company's directors' and/or management's, current expectations and projections about future events, constitute forward-looking information. Forward-looking information contained in this Presentation is based on certain assumptions, including without limitation, assumptions relating to the development of the Company's mineral properties, production costs, the geological interpretation and statistical inferences or assumptions drawn from drilling and sampling analysis, and assumptions relating to anticipated opportunities to grow, results of operations, performance and industry trends. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company, its directors and/or its management, as applicable, are inherently subject to significant legal, business, economic and competitive uncertainties and contingencies. Despite a careful process to prepare and review the forward-looking information, there can be no assurance that the underlying opinions, estimates and assumptions will prove to be correct. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual financial results, performance or achievements to be materially different from what is expressed or implied by those forward-looking statements, including risks associated with: general economic conditions; adverse industry events; future legislative and regulatory matters; inability to access sufficient capital on favourable terms; timelines and capital costs for the Company's projects; the ability of the Company to implement its business plans; competition; and foreign currency exchange, interest rate and gold price fluctuations. In addition, there are risks and hazards associated with the business of mineral exploration, development and mining, including environmental hazards, industrial accidents, flooding and gold bullion losses (and the risk of inadequate insurance coverage for these risks). Additional risks are described in detail in the Company's disclosure documents available on the Company's corporate profile at www.sedarplus.ca (including the Company's most recent Annual Information Form and Management Discussion and Analysis). Notwithstanding the foregoing, readers are cautioned that the list of risks set forth herein and in the Company's disclosure documents are not exhaustive. Except as required by law, we disclaim any obligation to update or revise any forward-looking statements, whether as a result of new information, events or otherwise. The information contained in these materials should be considered in the context of the circumstances prevailing at the time and has not been, and will not be, updated to reflect material developments which may occur after the date these materials were prepared. Where any opinion or belief is expressed in this Presentation, it is based on the assumptions and limitations mentioned herein and is an expression of present opinion or belief only. No warranties or representations can be made as to the origin, validity, accuracy, completeness, currency or reliability of the information. The Company disclaims and excludes all liability (to the extent permitted by law) for losses, claims, damages, demands, costs and expenses of whatever nature arising in any way out of or in connection with the information in this Presentation, its accuracy, completeness or by reason of reliance by any person on any of it.

Some of the financial information included in this Presentation is unaudited. There is a material risk that the audited financial results will differ significantly from the unaudited financial information presented herein. Certain information in this Presentation is based on management estimates. Such estimates have been made in good faith and represent the current beliefs of management. Management believes that such estimates are founded on reasonable grounds. However, by their nature, estimates may not be correct or complete. Accordingly, no representation or warranty (express or implied) is given that such estimates are correct or complete.

Historical statements contained in this Presentation regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future. In this regard, certain financial information contained herein has been extracted from, or based upon, information available in the public domain and/or provided by the Company. In particular, historical results of the Company should not be taken as a representation that such trends will be replicated in the future. No statement in this document is intended to be nor may be construed as a profit forecast.

The technical and scientific information in this Presentation has been reviewed and approved by Luis Albano Tondo, BSc Mining Eng, MEngSc, MBA, FAusIMM, who is also of the CEO of Jaguar Mining Inc. and is a “qualified person” as defined by National Instrument 43-101 – Standards of Disclosure for Mineral Projects (“NI 43-101”). All mineral reserve and mineral resource estimates are estimated in accordance with NI 43-101. Unless otherwise noted, such mineral reserve and mineral resource estimates are as of [December 31, 2024].

All figures in this presentation are in US Dollars, unless otherwise expressed.

The contents of this Presentation are confidential and may not be copied, distributed, published or reproduced in whole or in part, or disclosed or distributed by recipients to any other person. No securities commission or similar authority of Canada, the United States, Brazil or any other jurisdiction has reviewed or in any way passed upon this Presentation, and any representation to the contrary is an offence. No reliance may be placed for any purpose whatsoever on the information or opinions contained in this Presentation or on its completeness, accuracy or fairness. Readers should not construe the contents of this Presentation as investment, legal, tax, regulatory, financial or accounting advice and are urged to consult with their own advisers in relation to such matters. Readers are advised to conduct their own due diligence with respect to the Company and the information set forth in this Presentation and agree to be bound by the limitations of this disclaimer. The Company reserves the right, at its sole discretion, to modify all, or any part of, this Presentation without any liability or notification to any person. The Company's forward-looking statements and more broadly, this Presentation, are expressly qualified in their entirety by the foregoing disclaimers and cautionary statements.
